PROFILE/OBJECTIVE

An enthusiastic and competent **Conservation Scientist** of Cultural Heritage. Proven experience in electrochemistry, microscopic and spectroscopic techniques for **analytical and archaeometric** purposes as well as characterization of **archaeological materials**. Experience in establishing fruitful collaborations with academic institutions, working in groups, and organizing the research project. Experience in the dissemination and **communication**.

KEY SKILLS

- PhD in Environment and Cultural Heritage with experience in Analytical Chemistry.
- Reliable and respectful team player with good communication skills.
- Good interpersonal skills, able to work well across cultures at all levels.
- Successful at motivating and to be part of research teams, delivering results under tight deadlines.
- Goal oriented, effective decision maker with strong 'do it' attitude with excellent information and organizational skills.
- Experience in organizing the chemical laboratories.
- Experience in scientific writing, communication, dissemination and presentation.

PROFESSIONAL EXPERIENCES

• **Post Doc Fellow – Scuola Normale Superiore (Pisa, Italy)**

2022-2024

National Enterprise for nanoScience and nanotechnology (NEST)

FSC 2014-2020 Regione Toscana.

Project: “**Advanced sensors** for cultural heritage and environmental healthiness”. The control over healthiness / air quality and the safe usability of homes, work environments, indoor public places is a topic of crucial interest, accentuated even more by the current SARS-COV-2 pandemic and related health and social emergency. This project aims to overcome the usual limits to monitor and to guarantee the safety of the environment, using indoor museum spaces as a case study. In detail, strategies will be adopted for measuring, monitoring, and analyzing the parameters of temperature, humidity, **environmental pollutants**, and the effect that their alteration (due to both exogenous and endogenous factors) can have on the works of art will be evaluated. The standard sensors will then be integrated with a new class of sensors specially calibrated and engineered for these museum environments, which will therefore allow monitoring down to the level of individual artwork. Overall, we will arrive at a **quantitative assessment** of the integrated effect of all the factors mentioned on the artwork itself, over time, to **develop “customized” corrective strategies** on the individual artwork and its specific needs, as is done in the case of personalized medicine.

• **Post Doc Fellow – Scuola Normale Superiore (Pisa, Italy)**

2020-2022

National Enterprise for nanoScience and nanotechnology (NEST)

POR-FSE 2014-2020 Asse A, Programma COMAST, progetto MeB.

Project: Morpho-chemical analysis of **modern medals** from Museo del Bargello (Florence). The research is based on the development of an **analytical protocol** for the study of Renaissance medals. The techniques applied are all non-

destructive (profilometer, Raman spectroscopy, optical and electron microscopy). **3D modeling** is used to innovate the study and the dissemination of these materials among no-expert users. The project is completed with the test of **environmental sensor** to control the indoor parameters for the conservation of objects in the museum.

Skills acquired:

- **3D laser scanner**
- **Data elaboration: R, Geomrph, MeshLab, CloudCompare**

• Post Doc Fellow – Center for Cultural Heritage Technology (CCHT)

2019-2020

ISTITUTO ITALIANO DI TECNOLOGIA (IIT)

The research is focused on the **characterization** of ancient materials. I applied non-destructive methods to investigate archaeological **metals** to get information about the **corrosion and alteration processes** to develop adequate coating based on nanostructured and sustainable polymers. In addition to research, at CCHT I organized the chemical laboratory to start the research activities of the new IIT Center.

Skills acquired:

- **Optical Profilometer**
- **AFM**

EDUCATION & QUALIFICATIONS

PhD in Environment and Cultural Heritage– Doctor Europaeus mention

2019

Cum laude. Earth Sciences Department, Sapienza University of Rome.

Title of the Thesis: “Application of the EIS and VIMP techniques for the archaeometric studies on ancient bronze artefacts”

Visiting PhD Student

2016-2018

Electrochemical Techniques for Archaeometric studies, supervised by Prof. A. Doménech-Carbò, Universitat de València, Spain.

- Use of Voltammetry of Immobilized Microparticles (**VIMP**) for archaeometric discrimination of: silver and bronze ancient coins and ancient ceramics.
- Use of Electrochemical Impedance Spectroscopy (**EIS**) for corrosion and archaeometric purposes.
- Use of **FIB-FESEM-EDX** for micro-analysis of ancient silver coins.
- Use of **ATR-IR** for characterizing and discriminate ancient Romans ceramics.
- Use of **Raman Spectroscopy** for surface analysis of ancient samples.
- Use of **UV-VIS** for Maya Blue studies.

PhD Candidate in Environment and Cultural Heritage

2015-2018

Electrochemical Techniques for Archaeometric studies, supervised by Prof. G. Favero and Prof. C. De Vito, Sapienza University of Rome, Italy.

- Development of jellified electrolyte for EIS measurements.
- Use of **SEM-EDS, XRD** and **EMP** analysis for micro-chemical characterization of ancient bronzes and silver.

M.Sc. in Technologies for the Conservation of Cultural Heritage (Laurea degree)

2013- 2015

Sapienza University of Rome, 110/110 Magna cum Laude and Honour.

- ✓ Trainership in ENEA (Ente Nazionale Energie Alternative) into the European Program for the evaluation of Impact Pollution on Cultural Heritage Materials.

COURSES AND SCHOOLS

- ❖ 2021: Marketing dei Progetti e delle Imprese Culturali, 24Ore Business School
- ❖ 24-25 November 2019, Rimini: SCI*C Frist school in Communication of Chemistry.
- ❖ 26 September – 3 October 2019, Ca'Foscari University, Communication Week Workshops.
- ❖ 17 September 2019, Istituto Italiano di Tecnologia (Genova, Italy), Media Training Workshop.
- ❖ 12-13 February 2018, Centro Conservazione e Restauro Venaria Reale, II Scuola AIAR: Archeometria e Multidisciplinarietà.
- ❖ 23-26 January 2017, University of Bologna (Ravenna Campus) – V School of Chemistry for Environment and Cultural Heritage.
- ❖ 15-19 December 2016, Sapienza, University of Rome - Multivariate Analysis Course, School for Novices CMA4CH 2016.
- ❖ 7-11 November 2016, Centro Conservazione e Restauro Venaria Reale – V School of Infra-Red and Raman spectroscopy: the application on Cultural Heritage materials.
- ❖ 1-3 September 2016, Sapienza, University of Rome - ECIS 2016 Training Course: Colloids and Interfaces in Cultural Heritage: physic-chemical methodologies and new investigation approaches.

WORKSHOPS BY INVITATION

- * 14/10/2022: “Tecnologie diagnostiche e restauratori: come facciamo ad essere amici?” Open Restoration Talks, University of Urbino Carlo Bo.
- * 18/02/2022: “Arqueometría: la ciencia que descubre los materiales arqueológicos” Facultad de Ingeniería y Ciencias, Pontificia Universidad Javeriana, Bogotà (Colombia).
- * 10/05/2018: “Archeometria: la Ricerca Scientifica al servizio della Storia”, Lunch Talk, Earth Sciences Department, Sapienza University of Rome.

TEACHNIG ACTIVITIES

- ↳ 01/01/2022-31/05/2022: *La Normale e la Scuola*, ciclo di seminario per i ragazzi delle scuole superiori.
- ↳ 20/05/2020: *Archeometria e Archeologia*, Lezione per Alternanza Scuola Lavoro, Progetto ArchaeoHistory, Istituto Martino Martini di Mezzolombardo, TN.
- ↳ 16/04/2020: *The application of electrochemical techniques for the archaeometric studies*, in Advanced Physical Methods master course, Conservation Science and Technology for Cultural Heritage (DM270). Prof. Achille Giacometti.
- ↳ 21/05/2018: *Tecniche analitiche per l'Archeometria: studio delle leghe e della monetazione romana*, in the master course “Minerali metallici e gemme”, Science and Technologies for the Conservation of Cultural Heritage (LM-11), Sapienza Università di Roma. Prof. Caterina De Vito.
- ↳ 7/11/2016: *The use of Mendeley in Writing a Thesis* course for Master students of Technologies for the Conservation of Cultural Heritage (LM-11), Sapienza University of Rome. Prof. Gabriele Favero.

SUPERVISING ACTIVITIES

Supervising the thesis of:

- ☒ M. Di Fazio (MSc, Sapienza University of Rome, 110/110 cum laude). Title: Caratterizzazione archeometrica di “provisini” del XII secolo: un approccio multianalitico.
- ☒ V. Moscati (BSc, Sapienza University of Rome). Title: Applicazione di tecniche elettrochimiche non distruttive all’indagine dei prodotti di degrado del bronzo.
- ☒ B. Conte (BSc, Sapienza University of Rome). Title: Caratterizzazione elettrochimica di pigmenti azzurri della Basilica dei Ss. Cosma e Damiano.

DISSEMINATION EXPERIENCES

- 14/10/2022: **Open Restoration Talks**, "Tecnologie diagnostiche e restauratori: come facciamo ad essere amici?", University of Urbino, Italy.
- 30/09/2022: **Bright Night** – Researchers' Night. Le cicatrici dei Beni Culturali: un racconto dell'arte attraverso la materia del Camposanto Monumentale di Pisa.
- 24/09/2021: **Bright Night** – Researchers' Night. Aperitivo scientifico: Il futuro scopre il passato: le nuove tecnologie per i Beni Culturali.
- 29/05/2020: **Scienziainvideo** - **Tecnologie e beni culturali: strumenti moderni per misteri antichi**, IIT & ANSA Scienza.
- 12/04/2018: **Festival dei Giovani**. "L'incontro tra Cultura e Social Network: il Conservation Scientist e «Research for Cultural Heritage» (Gaeta, LT, Italy).
- Founder and author of the Blog "Research for Cultural Heritage" (www.researcherheritage.com) for the dissemination of Science applied to the Cultural Heritage.

PRESS

- * [Culture Future Interview: Professione Conservation Scientist](#)
- * [Press Conference Bright Night 2022 – Pisa Today](#)
- * [Scienza in Video – La Repubblica](#)

OTHER EXPERIENCES

- Commission judge in "A Conservation Carol 2019" conference for the best poster presentation.
- Organising committee of CEACA2017.
- Volunteering in FAI (Fondo Ambiente Italiano) with expertise in the valorisation and conservation of Cultural Heritage, gained during the stage in Assisi (Bosco di San Francesco).

OTHER TITLES

- ❖ "Esperto di diagnostica e di scienze e tecnologia applicate ai Beni Culturali Fascia 1", **Ministero della Cultura**.
- ❖ "Cultore della Materia" in Chemistry for Restoration (CHIM/12) course, **Sapienza University of Rome** and **Ca'Foscari University of Venice**.
- ❖ "Tecnico del Restauro", **Ministero della Cultura**.
- ❖ Figura tecnico-scientifica abilitata all'uso dei laboratori di diagnostica (Fondazione Centro per la Conservazione ed il Restauro dei Beni Culturali "**La Venaria Reale**").

EDITOR ACTIVITIES

2022: **Guest Editor** of the Special Issue "Cultural Heritage and Archaeometry", Sustainability Journal (MDPI, ISSN 2071-1050), IF = 3.20.

2021: **Guest Editor** of the Special Issue "Affirming Authenticity: Sustainable Conservation of Cultural Heritage", Sustainability Journal (MDPI, ISSN 2071-1050), IF= 2.57.

REVIEWER ACTIVITIES

AWARDS

- | | |
|---|-------------|
| • Best PhD Thesis 2020, Special Mention | 2020 |
| • National Prize for Scientific Literature "IoSCRITTOio" devolved by Fondazione Roma Sapienza | 2018 |
| • Award as Excellent Student of Academic year 2014/2015 in Sapienza University of Rome | 2016 |

GRANT

- Young researcher grant for the participation at ScienceABC **2020**
- Grant *Divisione Veneto* to attend SCI*C **2019**
- Young researcher grant for the participation at SCI2017 **2017**
- Young researcher grant devolved by Sapienza University of Rome **2017**
- Mobility PhD grant MIUR and Sapienza University of Rome **2016**
- Excellent Student Grant, Sapienza University of Rome **2015**

LANGUAGES

Italian:	Mother tongue
English:	B2 level, intermediate oral and written skills
Spanish:	C1 level, very good oral and written skills

COMPUTER SKILLS

Very good command of Microsoft Office tools, good knowledge of software for elaboration data (SigmaPlot, R, MagicPlot) and graphic ones (GIMP).

INTERESTS

I practiced figure skating for more than ten years and actually I still very much enjoy training it, although I no longer compete. Figure skating has been fundamental in my life, helped me to understand fair play, dedication, sacrifice and friendly competition. Moreover, I played in theatres for eight years, studying acting as well as diction.

I also enjoy very much reading and writing and I am authored a book for children called “Sottosopra”, edited by Irida Edizioni and published in May 2015 (ISBN 978-1-326-24642-6).
